

How do I join or leave MEF Wiki user groups (Wiki)

Question	How do I join or leave MEF Wiki user groups?
Answer	<p>In order to join or leave a MEF User Group, click your Profile Picture on the right, and select 'My Groups' from the menu appearing under your avatar at the top right corner of any page.</p> <p>On the 'Join and Leave Groups' page, you will see a column for each committee with the name of the committee and a checkbox next to it. If you are already a member of a committee, you will see the checkbox next to the committee name checked, and a list of user groups associated with that committee below the committee name. Each group has its own checkbox. If you are a member of these groups, you will see the checkbox next to the group checked.</p> <p>Similarly, if you are not a member of a committee, you will not see any groups appear below the name of that committee. However, by checking the checkbox next to the name of the committee, you will join that committee, and then automatically see the names of the associated groups appear below it. You can then choose which, if any, groups associated with that committee you want to join.</p>
