

Where should I upload draft Technical Documents?

How do I...	Where should I upload draft Technical Documents?
Answer	All Technical Projects will eventually have a dedicated area in the MEF Wiki. As soon as a Technical Project has such a dedicated area, there will be a dedicated documents upload page for that project which will be visible from the project home page. The objective is to have all new documents uploaded to the MEF Wiki, rather than the old MEF members site.
