

MEF 20 - UNI Type 2

User Network Interface (UNI) Type 2 Implementation Agreement

Status

PUBLISHED

MEF 20 is a specification document developed by the [Technical Committee](#) of the [MEF](#) that provides an Implementation Agreement for [UNI](#) Type 2.

Abstract:

"This document specifies an Implementation Agreement (IA) for MEF User to Network Interface (UNI) Type 2. This Implementation Agreement adds new functionalities to MEF UNI Type 1 [MEF13], such as E-LMI based on [MEF16], Link OAM based on clause 57 of [IEEE 802.3], Service OAM based on [ITU-T Y.1731] and [IEEE 802.1ag] and Protection using Link Aggregation based on clause 43 of [IEEE 802.3]."
