# MEF 14 - Traffic Management

Abstract Test Suite for Traffic Management Phase 1

MEF 14 is a specification document developed by the Technical Committee of the MEF that provides an Abstract Test Suite for testing traffic management at the UNI.

Abstract:

*"This document defines the requirements and corresponding test procedures for Service Performance and Bandwidth Profile Service Attributes that may be specified as part of a Service Level Specification (SLS) for an Ethernet Service. Requirements are derived from Metro Ethernet Forum Technical Committee documents."*
