MEF 24 is a specification document developed by the [Technical Committee](#) of the MEF.

Abstract:

"This document is the second part of the Abstract Test Suite for User to Network Interface (UNI) Type 2. It defines test procedures based on a combination of requirements for E-LMI described in MEF 20 User Network Interface (UNI) Type 2 Implementation Agreement and in MEF 16 Ethernet Local Management Interface. The overall Abstract Test Suite for UNI Type 2 will be composed of the following parts: Link OAM, E-LMI, Service OAM, Protection, Enhanced UNI Attributes and L2CP handling."
