MEF 31 - SOAM FM SNMP MIB

Service OAM Fault Management Definition of Managed Objects

MEF 31 is a specification document developed by the Technical Committee of the MEF.

Abstract:

"This document specifies the Fault Management (FM) Management Information Base (MIB) necessary to implement the Service Operations, Administration, and Maintenance (OAM) that satisfies the Service OAM requirements and framework specified by MEF 17 [8], the Service OAM Fault Management requirements as specified by SOAM-FM [10], and the Service OAM management objects as specified by MEF 7.1 [5] which are applicable to Fault Management functions. Two non-MEF documents serve as the baseline documents for this work: ITU-T Y.1731 [17] and IEEE 802.1ag [20]."
