

MEF 3.0 Service

MEF 3.0 services are services spanning one or more [Operator domains](#) and defined in MEF standards. MEF 3.0 services fall into two categories:

- Digital Services
- Connectivity Services

MEF 3.0 services are part of the [MEF 3.0 framework](#) launched by MEF at MEF17 in November 2017 and supersede CE 2.0 and CE 1.0 services.
