

# Bridging support for Carrier Ethernet Services Table

Bridging Support for Carrier Ethernet Services		
Ethernet Service	Support	Notes
<div>EPL</div> <div></div>	Yes with limitations	Limited Transparency Most L2CPs cannot be tunneled over the Carrier Ethernet Network  Does not support All-to-One Bundling as some CE-VLAN IDs are used by the Carrier Ethernet Network Operator
<div>EVPL</div> <div></div>	Yes with limitations	Does not support bundling Cannot always support preservation
<div>EP-LAN</div> <div></div>	Yes	Multicast inherently supported by backbone bridges
<div>EVP-LAN</div> <div></div>	Yes with limitations	Multicast inherently supported by the backbone bridges Does not support bundling Cannot always support preservation
<div>EP-Tree</div> <div></div>	Yes with limitations	Limited support Requires manual configuration
<div>EVP-Tree</div> <div></div>	Yes with limitations	Limited support Requires manual configuration Can operate in very specific scenarios
