

MEF18 Special News Edition No. 3 - MEF in the News

16 Nov 2018

Please see a new group of videos and articles related to MEF 3.0 and the recent MEF18 event. Comments from top executives illustrate the growing momentum for the industry transition to dynamic, assured services orchestrated across a global ecosystem of automated networks powered by LSO, SDN, and NFV.

Visit [MEF in the News](#), the [MEF YouTube Channel](#), and [MEF Press Releases](#) for the latest items. Stay tuned for much more, including a full set of PoC videos, podcasts, and MEF18 plenary & workshop videos.
