

MEF 57.1 - Ethernet Ordering Business Requirements and Use Cases

Abstract

This document represents the cumulative work between [MEF](#) and [ATIS Ordering and Billing Forum \(OBF\)](#) to identify the common ordering attributes and processes needed to support inter-carrier Product Ordering of Ethernet Services worldwide. This document supports the requirements defined in the [MEF Lifecycle Service Orchestration \(LSO\) Reference Architecture and Framework \(MEF 55, "LSO RA"\)](#) requirements for Ordering over the [Sonata interface](#) (Service Provider <-> Partner interactions). Information contained within this document will be utilized by both Buyer and Seller ordering systems for the development of automated API systems.
